// INVESTOR PRESENTATION

CreditBuddy

Borrow. Earn. Learn. Build the Future.

01 // MARKET GAP

The Problem: Student Financial Instability

43M+ Students in India

Face financial instability during their college years.

75%+ Face Regular Cash Gaps

Monthly shortfalls of ₹1k–₹10k driven by living expenses, emergencies, & career costs.

❌ Earn

Limited access to safe, flexible earning opportunities. Unstructured part-time work and inconsistent income.

❌ Learn

No financial literacy on budgeting, credit, or long-term money management. Students make decisions without guidance.

❌ Borrow

Banks reject students due to lack of credit history. Existing apps charge high APRs and use coercive recovery practices.

WHY EXISTING SOLUTIONS FAIL FOR STUDENTS

• Predatory lending (APR 70%+) • Aggressive calls and harassment • No income enablement pathways
• No financial education • Loan-first, short-term financial thinking

Students don't need just loans — they need a fair financial ecosystem.

02 // ECOSYSTEM SOLUTION

Our Solution: CreditBuddy

A unified student financial ecosystem built around Earn, Learn, and Borrow.

Safe, Instant Microloans (Borrow)

₹500–₹10,000 short-term credit with transparent pricing. Built for genuine student needs, not predatory lending.

Flexible Repayment (Borrow)

20–30 day repayment cycles with extension options. Reduces stress and improves repayment outcomes.

Repayment Discipline (Borrow → Earn)

Non-cash benefits such as higher loan limits and fee reductions for timely repayment. Encourages responsible borrowing.

Purpose-Based Loans (Borrow + Learn)

Preferential terms for verified education and medical expenses. Ensures credit is used for high-impact needs.

Earn & Learn Ecosystem (Earn + Learn)

Verified campus gigs and earning pathways paired with financial literacy tools to improve income stability.

CreditBuddy is designed as a long-term student financial ecosystem — not a loan-first app.

03 // MARKET SIZING

Market Opportunity

43M+ Students in India actively enrolled in higher education facing income gaps and credit needs.

TAM (Total Addressable Market)

43M Students • ₹1,20,000 Cr

All higher-education students in India with recurring financial needs.

SAM (Serviceable Addressable Market)

25M Students • ₹40,000 Cr

Urban and semi-urban students seeking short-term credit and income pathways.

SOM (Serviceable Obtainable Market)

200K Students • ₹400 Cr

Campus-first rollout through selected colleges using ambassadors and referrals.

TARGET SEGMENT: STUDENTS (18–25)

- Digitally native, mobile-first users
- Frequent cash-flow mismatches
- Limited or no access to traditional credit
- Early need for income opportunities & financial guidance

WHY THIS MARKET IS ATTRACTIVE

- High-frequency, repeat financial needs
- Early entry into customer financial lifecycle
- Strong campus-driven and referral-led network effects
- Low brand loyalty to existing solutions

04 // COMPETITIVE LANDSCAPE

Competition Analysis

Purpose-built for students — not adapted from consumer fintech.

Feature	mPokket	Slice	CreditBuddy
Pricing Model	High effective pricing	Variable, usage-based	✓ Transparent, student-aligned
Core User	General micro-credit users	Young professionals	✓ Students (18–25), campus-first
Product Focus	Loan-first	Credit-led lifestyle	✓ Earn + Learn + Borrow
Engagement Model	Standard fintech processes	Conventional collections	✓ Support-led, student-safe
Financial Literacy	Minimal	Limited	✓ Built-in literacy tools
Regulatory Structure	NBFC-partner-led	RBI-compliant structure	✓ Fully compliant, NBFC-led

CreditBuddy combines Borrow + Earn + Learn into a single student-first moated ecosystem.

05 // USER RESEARCH

Validation & Early Traction

Early validation from students across multiple campuses (ages 18–24)

75%

Face Financial Challenges

Recurring short-term money gaps affect academics and daily life.

62%

Prefer RBI Compliance

Trust regulatory-backed solutions over informal or unregulated credit.

78%

Want Earn & Learn

Seek income pathways combined with skill-building and guidance.

"Finally, a platform that understands students and prioritizes trust."

— Student participant (Delhi University)

"Learning how to manage money mattered as much as accessing credit."

— Student participant (IIT Sambalpur)

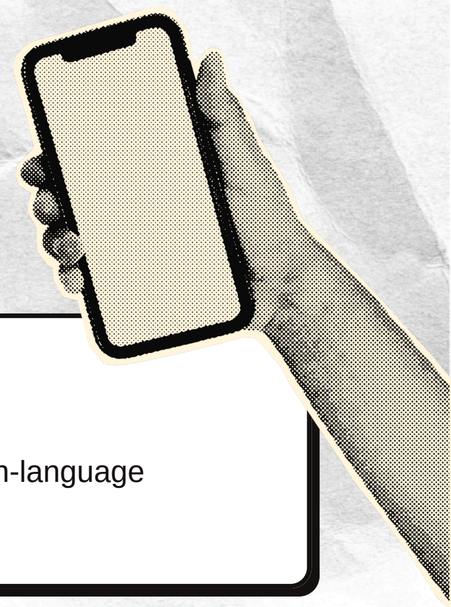
KEY EARLY LEARNINGS:

- Strong appreciation for simple onboarding & transparent terms
- Prototype tested by 50+ students, and the entire student ecosystem was built based on their feedback.

06 // PRODUCT FLOW

How CreditBuddy Works

A simple, transparent flow designed for students — aligned with trust and compliance.



01 Apply (Purpose-Based)

Select loan purpose and amount through a simple, mobile-first interface built for college use cases.

02 Transparent Agreement

Clear RBI-compliant documentation with a plain-language summary of interest, fees, and timelines.

03 Instant Disbursement

Funds disbursed immediately upon post-approval verification with zero hidden charges.

04 Flexible Repayment

20–30 day repayment cycles with extension options designed to reduce stress and prevent defaults.

05 Responsible Usage Benefits

On-time repayment unlocks better terms, lower fees, and higher eligibility over time.

06 Earn & Learn Integration

Access to verified campus gigs and financial literacy tools to improve income stability and score.

CreditBuddy is built as a long-term student financial ecosystem — not a loan-first app.

07 // MONETIZATION

Revenue Model

A lending-led model with ecosystem revenue layers — designed for sustainability & low CAC.

TODAY // REVENUE LAYER: LOAN INTEREST

Loan Interest: Transparent, student-aligned interest on short-term microloans. Designed for high repayment discipline and regulatory compliance.

SCALING PHASE // GIG MARKETPLACE

Commission from connecting students to verified campus gigs & income opportunities. Lowers credit risk.

SCALING PHASE // BRAND PARTNERSHIPS

Targeted, opt-in partnerships with student-focused brands (education, lifestyle) monetized contextually.

LONG-TERM // PREMIUM TOOLS

Optional productivity & career tools (resume builder, study aids) improving income stability & retention.

LONG-TERM // BUDDY COINS ECOSYSTEM

Non-cash incentive layer rewarding responsible usage and repayment, driving cross-product adoption.

Lending drives revenue; ecosystem layers improve LTV, retention, and unit economics without increasing student cost burden.

08 // ECONOMICS

Unit & Customer Economics (Modeled)

₹1000 Student Loan	**30 Days**
Interest Earned Interest charged on ₹1000 for 30 days	**+ ₹60**
NBFC Partner Share Share to our lending partner NBFC	**- ₹20**
Technology & Operations KYC , infra , compliance , support	**- ₹25**
Credit Loss Provision Expected defaults (1.5%)	**- ₹15**
Net Contribution per Loan After partner share , ops & risk provision	**₹0 - ₹5**

₹220

Gross CAC

Cost to acquire 1 student

<12 Months

CAC Payback

Time to recover acquisition cost from cumulative contribution

~₹480

Annual Contribution

Driven by repeat usage & non loan revenue

₹2.5K–₹3K

3-Year LTV

Total contribution per student over 3years

11x–13x

LTV : CAC Ratio

₹11-₹13 of contribution for every ₹1 spent on acquiring a student

Beyond the first loan

Initial loans build trust . Long-term value comes from repeat usage and other student services

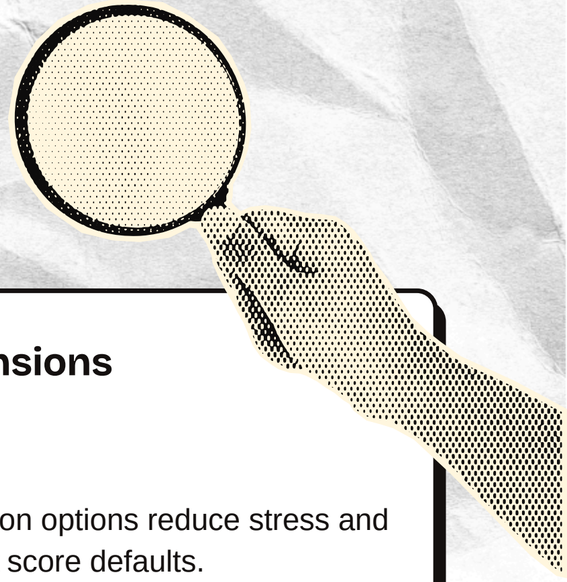
Repeat Loans	Partner Products	Campus Services	Student Lifetime
Higher usage over time	Additional fee income	Value added offerings	3+ years of engagement

CreditBuddy prioritizes student trust and adoption in early transactions, with margins expanding through ecosystem monetization.

09 // RISK FRAMEWORK

Risk Management

A prevention-first credit risk framework built for students, compliance, and long-term portfolio quality.



Gradual Credit Building

Small starting limits (₹500–₹1,000), increased only through verified on-time repayments.

Earn-to-Repay System

Verified campus gigs directly help students earn income and repay microloans on time.

Flexible Extensions

Pre-default extension options reduce stress and prevent hard credit score defaults.

Purpose Verification

Proof-based microloans specifically targeted for verified education and medical needs.

Radical Transparency

Plain-language, RBI-aligned agreements with zero hidden fees or surprise penalties.

Risk is managed through behaviour-based incentives and early intervention mechanisms.

10 // GTM STRATEGY

Go-To-Market Strategy

Campus-led growth with low CAC, trust-first distribution, and controlled credit risk.

Phase 1: Campus Foundation (1k–10k students)

`Controlled pilot & repayment validation`

- Campus ambassadors + verified onboarding
- College & student-body tie-ups
- Repayment-linked referrals

Goal: Validate CAC, repayment discipline, & trust signals

Phase 2: Regional Expansion

`Earn-to-repay driven organic growth`

- Gig marketplace → higher income, better repayment
- Word-of-mouth from high-performing cohorts
- Regional college clusters

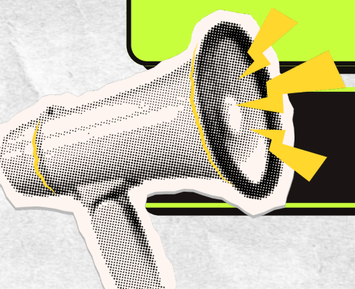
Goal: Scale with improving unit economics & lower risk

Phase 3: Pan-India Scale

`Demand-led national rollout`

- Waitlist-based expansion to manage exposure
- Product-led Earn-Learn-Borrow loop
- Strategic partnerships (NBFCs, brands)

Goal: National presence with disciplined credit control



Growth is product-driven — distribution improves repayment, not just installs.

11 // TEAM & ADVISORS

Driven by Students, Guided by Experts

Student-led execution, strengthened by experienced compliance, finance, and growth leadership.

CORE TEAM

Debasish Mallick – Founder & CEO

Founder building a compliant credit ecosystem. Owns product vision, credit design, & regulatory alignment.

Dr Bimal Kumar Mallick - Tech Lead

Leads fintech backend architecture, security, and scalable systems.

Priyankar Padhy - Tech Developer

Full-stack developer (mobile + backend). Focused on UX, reliability, and performance.

CA Nidhi Agrawal - Fintech advisor

Guiding responsible lending and student-focused financial solutions.

Extended Support Team

5 on-demand specialists supporting UI/UX, backend, content, marketing, and growth.

ADVISORY BOARD

CS Susant Pradhan – Compliance Advisor

RBI compliance frameworks, governance structure, regulatory readiness.

CMA Vishal Pathak – Finance & Audit Advisor

Unit economics, audits, and financial control systems.

Karan Agrawal – Lending & NBFC Advisor

Lending structure, NBFC partnerships, and capital flow management.

Shekhar Kumar Padhy – GTM & Revenue Advisor

Go-to-market strategy, monetisation, and revenue scaling.

Ayush Nanda – Business Advisor

Fundraising guidance and national expansion strategy.

Founder-led execution, with governance, compliance, and scale guided by experienced operators.

12 // LONG-TERM VISION

Vision & Long-Term Impact

Building financially confident students and a responsible student credit ecosystem.

Financial Literacy

Equipping students with practical financial knowledge for long-term independence.

Gamified Responsibility

Encouraging disciplined financial behavior through incentives and Buddy Coins.

Diverse Earning Opportunities

Unlocking income via campus gigs, referrals, rewards, and skill-based work.

Long-Term Credit Health

Helping students build strong credit histories that unlock future banking opportunities.

BORROW → EARN → LEARN

Future-ready students. Responsible credit. Scaled impact.

13 // FUNDRAISING

Investment Opportunity

WE ARE RAISING A SEED ROUND TO SCALE CREDITBUDDY

We are raising a seed round to scale CreditBuddy's compliant, campus-led student credit platform across India.

Guidance & Mentorship

Fintech, NBFC, and regulatory guidance to build a compliant, scalable student lending platform.

Strategic Partnerships

Access to NBFCs, lenders, and financial institutions to power lending partnerships at scale.

Scaling Support

Capital and operational support to expand campus-led distribution and controlled credit rollout.

STAGE: SEED | RAISE: ₹1.5–2 CR

Use of Capital: Compliance readiness, product hardening, campus pilots, and controlled geographic expansion.
Ideal Investors: Angels, early-stage funds, and operators with fintech, lending, or regulatory expertise.

THANK YOU

Together, we are building a responsible, student-first financial future for India.
